 - 4**
Obligation to verify users and delayed process of verification
 - 5**
Fault tolerance and safety
 - 6**
Various regional restrictions on access to the exchange

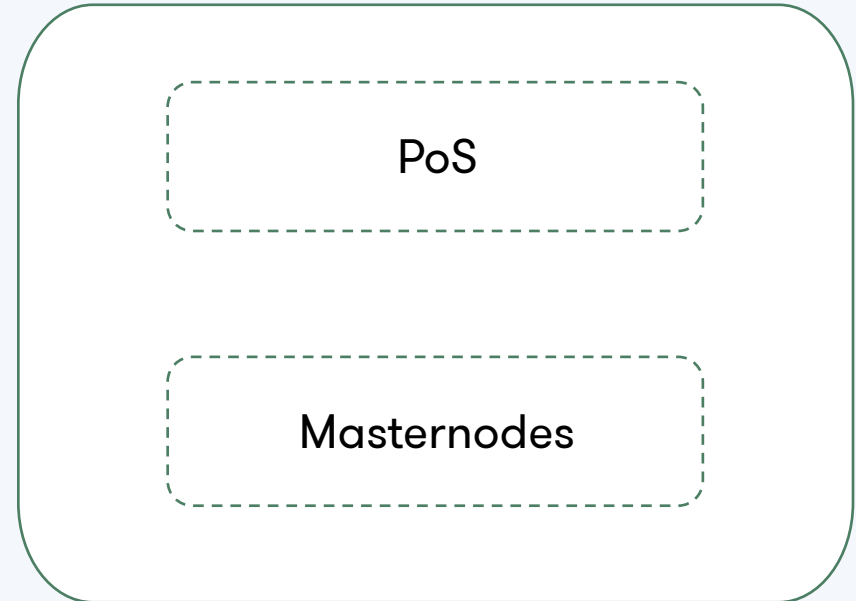

Ecosystem

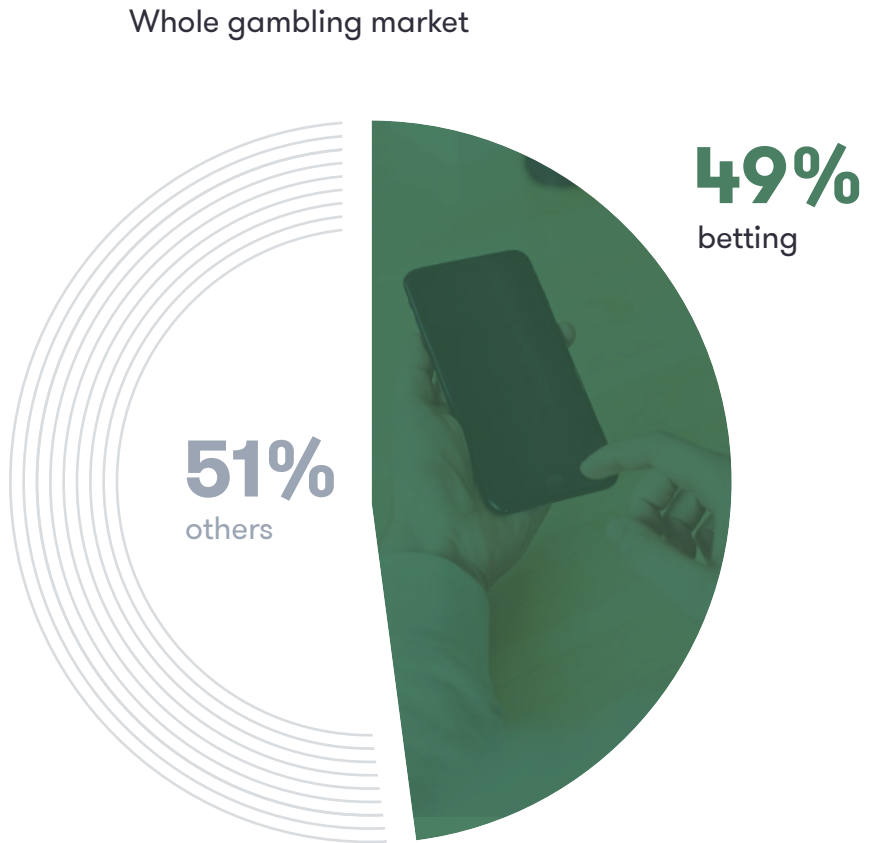

Betting Exchange

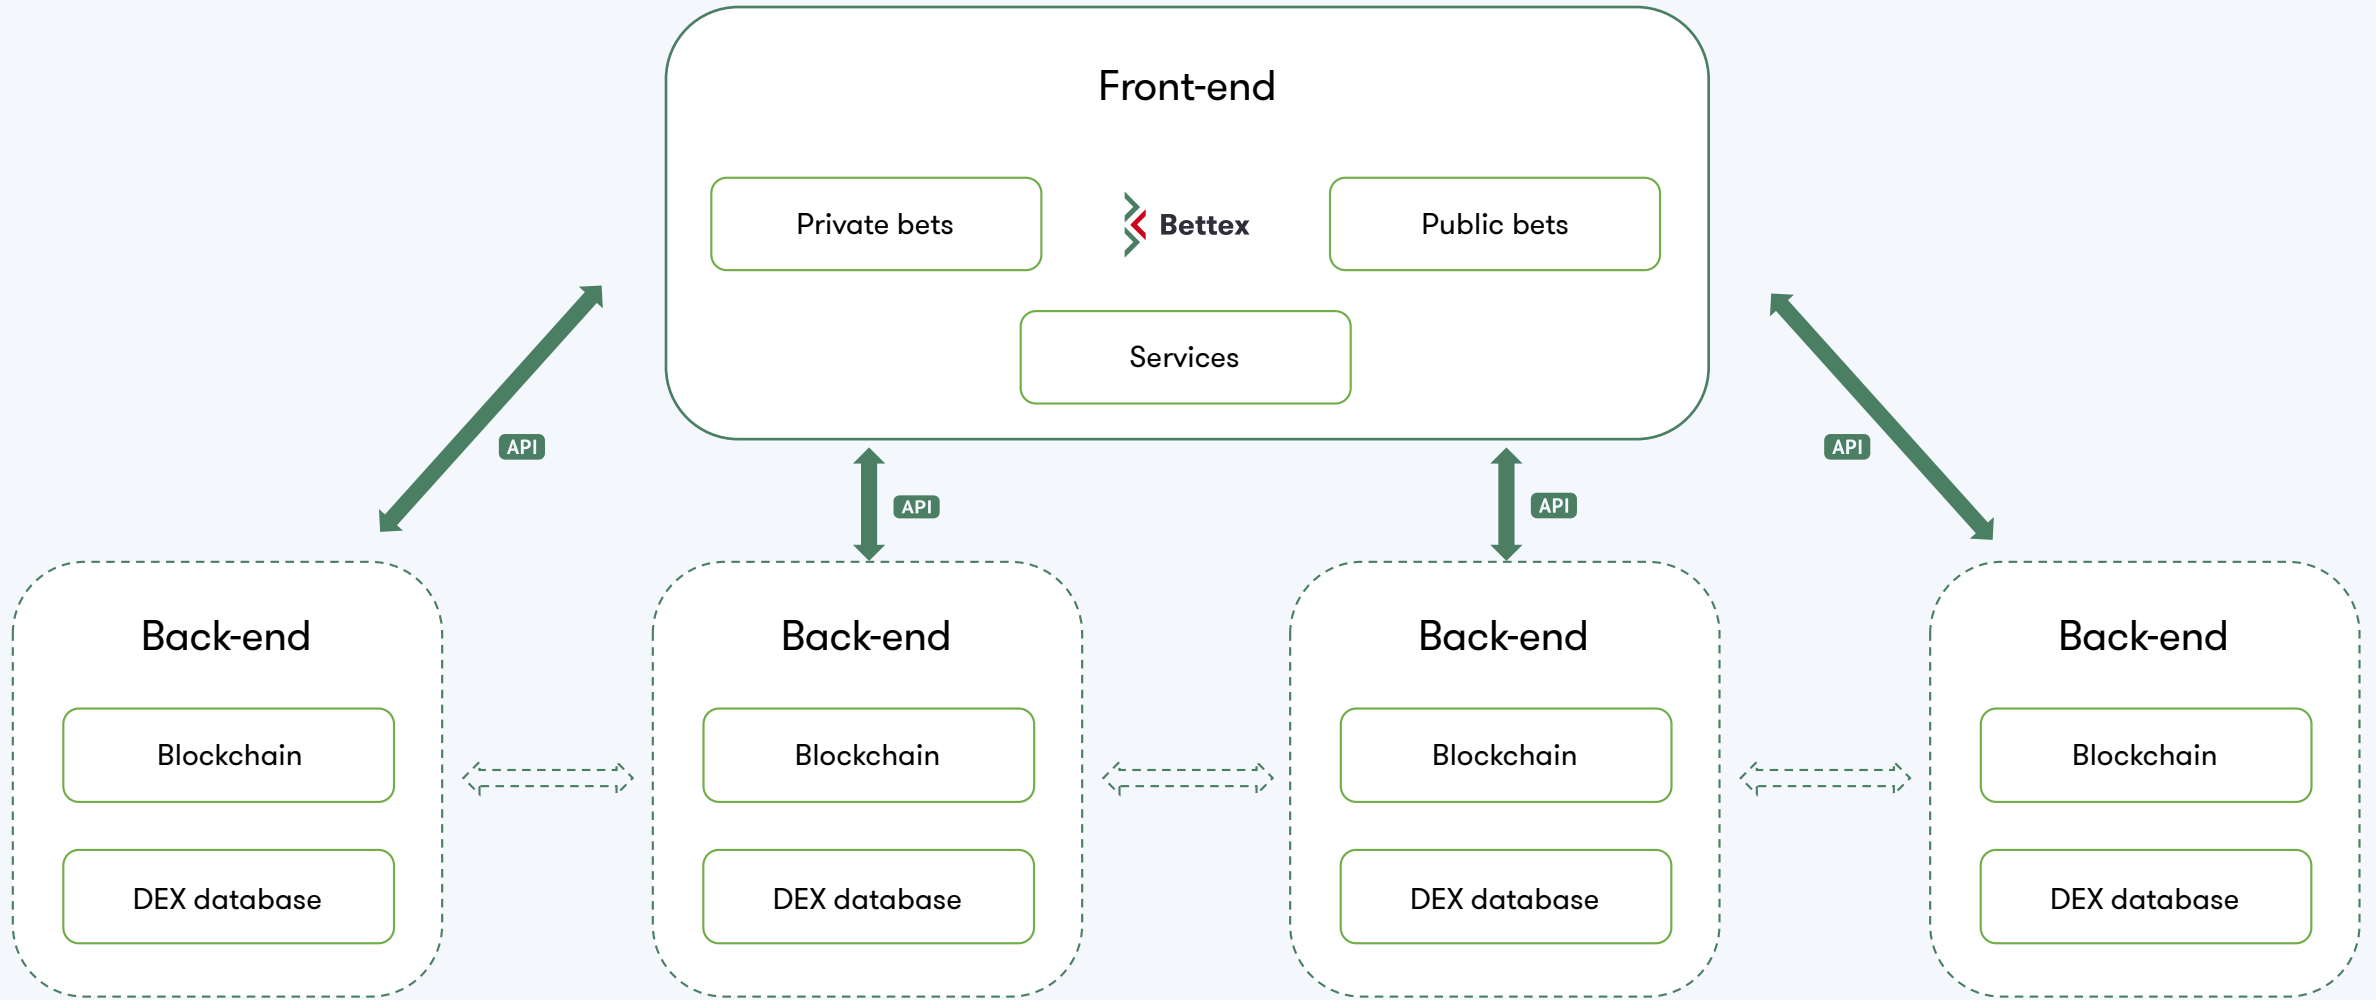

Bettex coin

04 Online betting market volume

05 Bettex DEX betting exchange

Betting exchange the Graphene blockchain, bets are accepted only in Scorum coin.

Special features

- betting exchange the Graphene blockchain with its own betting token
- non-fee rates
- lack of additional services
- got the Curaçao licence

Conclusion

The first and only effective exchange of rates on the blockchain, currently. It can be considered as a competitor in the online betting market.

Beting exchange on ETH smart contracts with various modifications of interaction between users. It is planned to use a BX token on the exchange.

Special features

- interesting approach to solving problems of centralization in
- serious and big team
- ICO with \$ 20 million hardcap
- rate fee 4 %

Conclusion

The project is at the fundraising stage, currently. It can be regarded as an indirect competitor in the online betting market.

Free market

Bets are accepted in BTXC,
fee 0%

Services

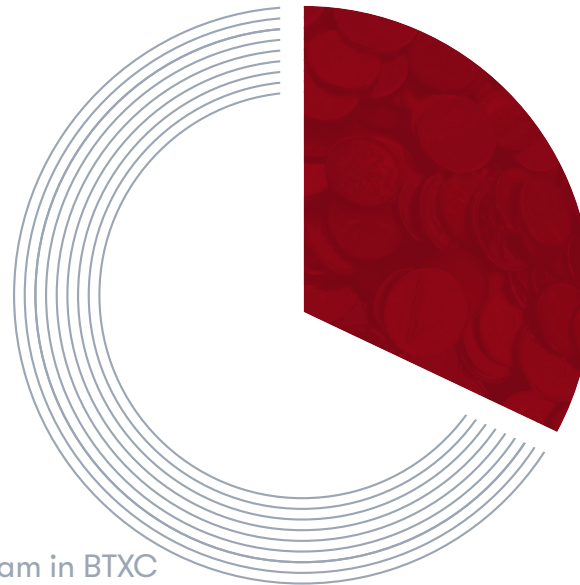

Payment in BTXC

Pro market

Bets are accepted in USDT,
fee 1%

70%

of the profit is paid
to the development team in BTXC
and USDT

30%

of the profit is distributed among
the Bettex stock asset holders
in BTXC and BTC

08 Team

Alexandr
CTO

A technical leader, architect and lead developer of the project. He has more than 15 years of software development experience, as well as 10+ years of Internet project development, including major, high-load Internet projects. Alexandr was involved in several startup launches and has broad leadership experience in big businesses. He has a deep technical expertise and he knows how to get things done.

Yegor
CIO

Engaged in data processing and machine learning in the project. 6+ years of experience in Data Science, machine learning and artificial intelligence. He knows how to work with data, benefit from it and make models

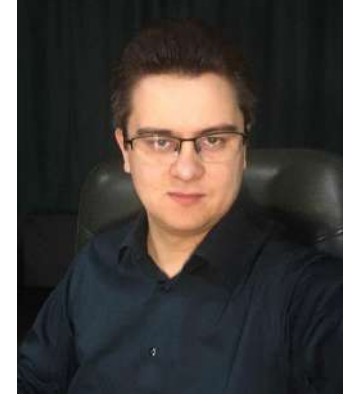

Viacheslav
CEO

The initiator and engine of the project. Having 3+ years of experience in the crypto-currency industry and 5+ years as a team Chief, he acquired a great knowledge base. Viacheslav is a true leader and extremely focused on the result.

Alexandr
CDO

Responsible for the design of interfaces, design and development of the client's part of the whole project. More than 5 years of experience in creating well-designed and user-friendly services, applications both as a senior product designer and as a front-end developer. Understanding business values and knowledge of modern and development prospects, web development capabilities allow Alexandr to implement proven and reliable solutions into the project.

Ruslan
OFC

Has deep marketing background with more than 11 years in one of the biggest national corporations. Two different higher education degrees make Ruslan versatile in finding common language with a variety of people who share an interest in the project.

It is planned to hold five stages of crowdfunding, totaling \$ 277,500 through the sale of non-reissued Bettex stock token on the Waves decentralized exchange.

Each asset holder will receive 30% of the exchange profits in the form of quarterly payments in Bettex stock assets to their Waves wallet, depending on the number of Bettex stock.

Implementation plan for a token through the Waves decentralized exchange

#	Month	Amount Bettex stock
1	January	90 000
2	March	15 000
3	April	15 000
4	May	35 000
6	June	30 000
Total		185 000

Selling price of Bettex stock token through the Waves decentralized exchange

#	Quantity	Price USD
1	70 000	1.25
2	35 000	1.35
3	15 000	1.45
4	65 000	1.85
Total	185 000	~1.50

Token specification

0.00016% of exchange profits per one token will be charged.

Name	Bettex stock
Issuer	3P7KbwqAX9dGK4rYsua4*8GXt4BunTYGMJz
ID	J1Bk6FUuEiY7gtpqpPTnAXAXgpVHevaKpLJbvqnEsmgd
Total released	185 000
Symbols after comma	2
Type	Not reissued
Release date	31.12.2018

For example

Net profit of the exchange amounted to \$ 100,000

$100\ 000/100*30\% = 30\ 000\ \text{USDT}$

$30\ 000\ \text{USDT}/185\ 000\ \text{Bettex stock} = 0,16\ \text{USDT per 1 Bettex stock will be paid}$

Indicative payment plan for holders per one Bettex stock token in USDT

Year	I quarter	II quarter	III quarter	IV quarter	Total
2019		0.06	0.23	0.47	0.76
2020	0.76	1.05	1.34	1.63	4.79
2021	1.98	2.45	2.92	3.39	10.74

Planned user growth in 2019

5 000

II quarter

15 000

III quarter

20 000

IV quarter

Planned profit in 2019, USDT

40 000

II quarter

150 000

III quarter

300 000

IV quarter
